JUMP START PROGRAM

You bought a boat - What's Next

Let us help you develop the essential skills for easier handling and safer operation of your new vessel.
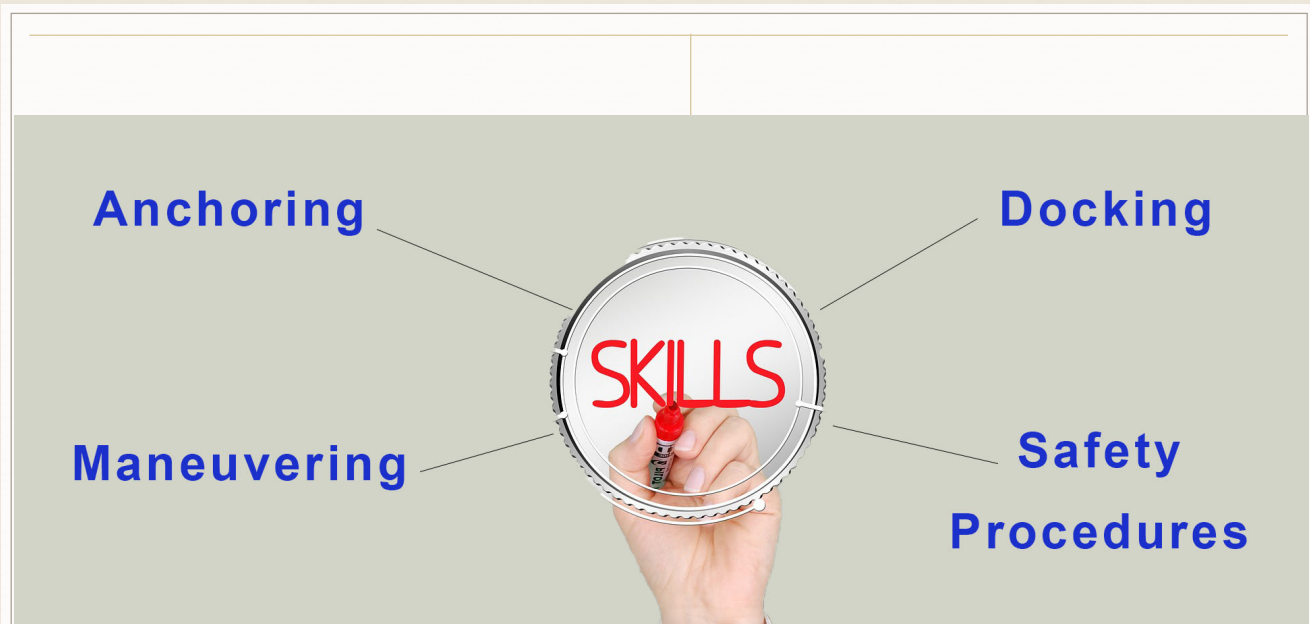

CUSTOMIZED ONE-ON-ONE TRAINING

The Jump Start Program is a hands-on training program from the Boat Operator Certification Committee of America's Boating Club. It provides a framework for a one-on-one training session with a student on their own boat. The content of the training is customized to fit the needs of the individual student.. The Jump Start Program provides a personalized, high-quality training experience for the student.

Hands on training right on your own boat!

This training is offered as a *free* benefit to America's Boating Club members.

❖ The student should be the owner of a new boat, or at least a boat new to them.

❖ The student should have some boating experience, but may have limited experience with a boat of the type for which the training will be conducted.

❖ All students must complete a boating safety class, such as our America's Boating Course 3rd Edition.

❖ If you are a new boater, we also recommend our Hands-On Training: Basic Powerboat program as a starter.

ADDITIONAL TRAINING AVAILABLE:

Jump Start is part of **America's Boating Club**. A club for all types of boaters – novice or experienced, in coastal or inland waterways. We bring boaters together to improve their skills, make connections, or just enjoy time together. Our boating courses and seminars are just the beginning – beyond the classroom a world of boating fun awaits!
