

THE EAGLE'S EYE

VOLUME 43 ISSUE 8 www.marcoboatingclub.org October 2021

WELCOME BACK TO A NEW SEASON OF BOATING!

For those of us who call Marco Island home all year round, October has the feeling of the beginning of a new year! Many of our snowbird members start returning to Marco Island in October and we start to see the beginning of cooler weather. We all hope for that first cool spell where we can finally open our windows and sliders after months of being cooped up in air conditioning! There's a new energy on the island as more people come back and attend our different programs and classes. As this October starts, we hope that you'll commit yourself to supporting America's Boating Club-Marco Island by doing any of the following:

- ◆ Volunteer for a position on the Executive Board
- ◆ Volunteer to help out with an event, cruise or party
- ◆ Take a class to improve your boating skills
- ◆ Attend a boating activity
- ◆ Come to a Captain's Meeting at CJ's
- ◆ Have a Vessel Safety Inspection of your boat
- ◆ Help out with the Wine and Hors d'oeuvres Party
- ◆ Mentor a new member

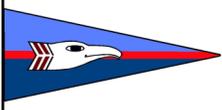

The health and vibrancy of our club is dependent on the commitment of each of our members to do what they can to support our mission of boating safely. We hope that all our members will help us achieve our mission during this upcoming season.

THE EAGLE'S EYE EDITOR
Lt Marcy Marinelli, P

October signals the beginning of season on Marco Island and we are excited to welcome back our members who have summered up north. We've had a few members move away from Marco this summer but we have welcomed new members who have moved here. We've had a couple marriages to celebrate as well. Come to one of our events when you return to the island and see who and what is new in our club. If you haven't taken one of our courses in awhile, plan to sign up for a course or seminar to improve your boating knowledge. We've got lots of opportunities for you to become involved in America's Boating Club-Marco Island!

COMMANDER
Wanda Burson, S

This has been an unusual summer so far. All the rain has kept many of us off the water. Covid is still hanging around causing trouble. As we are trying to find our way back to the new normal, it feels like obstacles are thrown in the way. Things are changing for all of us. Let's make it a more enjoyable, fun time as we settle into the way things will be.

We finally got all the bank account signatures changed for the current Bridge members.

We spent a lot of time this summer getting the details worked out for the upcoming Fall and Winter Dinner Meetings. We will be meeting at the Marco Island Yacht Club. Our first meeting will be October 13, 2021. The menus we selected will have something for everyone. It will be great to see everyone again.

As our members return to Marco, I suggest that you check the calendar and Eagle's Eye for changes to our schedule. The weather has been a large factor in the events we were able to hold this summer.

Be sure and check out Ted's column for the latest in courses that will start as our members from distant locales return.

Look for Dorothy's Dinner Meeting Flyer in this edition of the Eagle's Eye. Make your dinner selections and get your money and choices into Dorothy early.

See you soon.

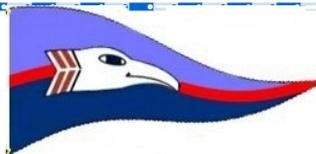

SUNSHINE NEWS

Please keep Katy Hart in your thoughts and prayers as she recovers from surgery at home. Also remember John Noffze as he recovers from shoulder surgery.

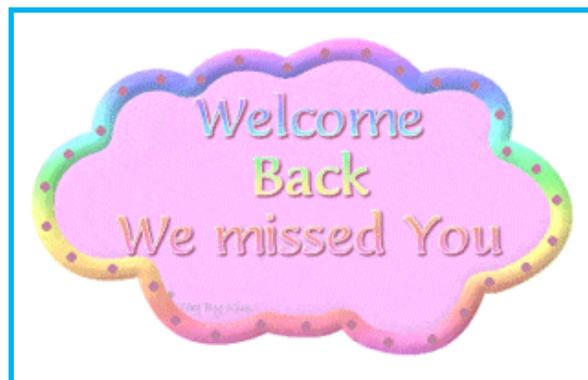

Please let me know of anyone who is sick, injured or deceased. I will send a card in the name of the squadron.
AnnMarie Ryan
908-313-8357
annmarieryan@att.net

Captain's Meeting
"Meet & Greet"
everyone welcome!
CJ's Gazebo Bar
at the Esplanade at 1700
on the 4th
Wednesday of the Month

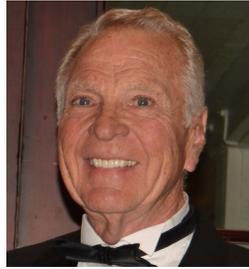

For the time being, those who wish to attend should just show up at CJ's and be ready to enjoy a socially distant meet and greet!

**EXECUTIVE OFFICER
D/Lt/C Gene Burson, JN**

I started to think about my next Eagle’s Eye article after just getting home from a 9/11 Remembrance ceremony. This ceremony was for all community citizens to attend to remember those that perished on that day. When leaving, I began to think of how this ceremony was somewhat parallel to our Club.

The COVID pandemic is much like a terrorist attack on the Club. It has stopped us from doing activities, being able to socialize with members, and prevented us from traveling freely. We cannot remain its’ victim.

This Fall we will begin in high spirits with many activities and programs for fun, camaraderie, and a good feeling to be a member of America’s Boating Club-Marco Island.

There is something for everyone. Of course, we will once again have on-the-water activities, luncheons, Captain’s meetings, General membership meetings, and safe boating classes, but we will be planning for our first fundraiser in two years, the Wine & Hors d’oeuvres Party.

Volunteers are needed today to fill in for the Marketing/Public Relations Chair and Safety Officer. If you are willing to try, contact me. Volunteers are also needed in every job to execute the Wine & Hors d’oeuvres party. I will be having a meeting in early October to explain the party and the many tasks that need volunteers to successfully hold this event. Plan on volunteering.

Cliff Winnings can accommodate a couple more people to be part of his Co-op Charting program. You get to be on the water, learn more about the waters around Marco Island, and do a valuable service for the City and County.

You do not need to have extensive experience on boats or the waters around the island to be a Vessel Safety Check (VSC) inspector. You will need to take a class to know what to identify on boats of all sizes and pass a test, but the rewards are numerous. Keeping boaters safe on the water is a big part of our mission.

(Continued on Page 6)

**ADMINISTRATIVE OFFICER
D/Lt/C Peggy Reiss, JN-IN**

Our hot and muggy and rainy Summer has morphed into our hot and muggy and rainy Fall! In spite of all the pandemic worries America’s Boating Club—Marco Island moves on. Just think, if you lived full-time up north you would be planning to get your boat shrink-wrapped and up on the hard to wait out another winter before launching in the Spring. Lucky for us we can boat all year here in Paradise.

Soooo let’s go boating!! Take advantages of activities planned such as the Cruise and Lunches, picnics, raft ups and just getting together out on the water. Also take advantage of the land activities such as Dinner Meetings, CJ’s, Cards at the Condo. Come to the D22 Fall Conference and learn great stuff at the Roundtables and meetings. All this is listed on our website.

I want to welcome our member Past Marco Island Yacht Club Commodore Ray Rosenberg, AP as the MISPS Connect Coordinator. As you know, this program links new members with established members. Please see Ray’s article on page 13 in the newsletter and volunteer to help. Without members ABClub-Marco Island will cease to exist.

Speaking of new members, please welcome Miles Blunt. He lives on Marco Island and is looking for education classes and has skills in photography he would like to share. A 20 foot NauticStar gets him out on the water. He joined in August.

Tim Benincasa and Significant Other Jane Orsulak joined in September. They are snowbirds from Ohio and belong to Freedom Boat Club. Tim is a past active member of Sandusky Power Squadron in Ohio, achieving 10 merit marks and grade of Advance Pilot. Presently they are building a home in Naples and plan to be down in November.

Christopher Kimble also joined in September. He lives on Marco Island and is involved with the company Hull to Prop. He has a 20 foot power boat by the same name. His credentials show a USCG Captain’s license which gives him the grade of Advance Pilot.

We welcome all our new members!

EDUCATIONAL OFFICER

P/D/C Ted Reiss, SN-CN

Our Education program for the Fall begins on 30 September with the first session of the America's Boating Course. This will be followed by the two-hour Advanced Powerboat Handling seminar on 18 October and the first class of the seven session Boat Handling course on 25 October. Space is still available for each, so if interested in learning more about boating please register with me.

All classes will follow the CDC guidance for temperature checks, distance and face masks. The full education schedule for the Fall and Winter is in the Eagle's Eye on pages 15 -16 and on our web site. Early registration is encouraged to insure delivery of student manuals. One course not listed is Marine Electronics. This course can be scheduled in the Winter and covers AC and DC components and circuits etc. Let me know if you are interested.

Notice that not only are courses and seminars listed, but also free use of the class-room Vessel Simulator and two on-the-water training opportunities – Hands on Training (HOT) and Jump Start. HOT provides guidance on how to perform 25 boat operation skills leading up to the Boat Operators Certificate. What is BOC? Ask me. The Jump Start program is training on your boat or rental boat aimed at specific aspects of boat handling you would like help learning how to perform (like docking, anchoring etc.). Is there some skill we can help you improve OR can you help others improve a skill?

In what other areas of boating are you interested? If you identify a topic I will find an instructor. Speaking of instructors, we need more certified instructors. A free Instructor Development course is scheduled for December. Certified instructors are needed for the America's Boating Course. During the training sessions you will practice instructing several of the many topics in the America's Boating Course.

Another free seminar in December is Operations Training. This session provides information on: the total organization structure; history; purpose of national, district and squadron levels; job description/function of squadron officers and committees and how you fit into America's Boating Club – Marco Island. There is no better way to learn about our organization.

A final thought, learning is also an opportunity to meet your fellow club members. Let's continue to learn, go boating and stay safe.

Executive Officer Report, Cont. (from p. 5)

You are possibly the first person to talk to the boater about our Club. You can be an extension of the membership committee. Contact Ted Reiss to take the VSC class and John Salotto about becoming a VSC inspector.

I encourage all members to consider becoming instructors. All classes taught by us come from USPS with a PowerPoint presentation to be used in the classroom. With so many classes that we offer, we also need many more instructors. The first few times you teach in the classroom, another instructor will be there to take on the hard questions. You are not alone. Once again, contact Ted Reiss to learn more about becoming an instructor.

Get in the swim of things and come to the meeting in October, consider taking a class, and of course, volunteer in one or more of the many opportunities the Club offers its' members to help make boating safer.

VESSEL SAFETY INSPECTORS

As you get your boat ready to go back into the water after being up north for the summer, don't forget to get your vessel safety check done. Here's a list of our certified VSC examiners. You can contact anyone on this list and they will come out and give you a FREE vessel safety check.

CAPTAIN'S MEETING AND DINNER AT CJ'S

Captain's Meetings were held at CJ's on the Bay throughout the summer. Thanks to Cdr Wanda Burson for taking photos at the August Captain's meeting. We had a large crowd that day and many of the attendees stayed for dinner afterwards. Starting in October, our Captain's meetings will be held on the last Wednesday of each month (excluding November which will be on Tuesday 11/23). Stop by and join your fellow squadron members and catch up on all the news and events.

WELCOME BACK!

P/D/C Edward Reiss, SN-CN

Captain Ted’s Corner

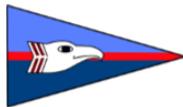

- INLAND ONLY** Your vessel must remain in a narrow channel for safe operation. Another vessel is crossing the channel from your starboard. You do not think she will pass safely. You **MUST** _____.
 - stop your vessel, since the other vessel has the right of way
 - sound one short blast of the whistle, and turn to starboard
 - sound the danger signal
 - stop your engines, and you may sound the danger signal
- BOTH INTERNATIONAL & INLAND** When navigating in restricted visibility, a power-driven vessel shall _____.
 - stop her engines when hearing a fog signal forward of her beam, even if risk of collision does not exist
 - have her engines ready for immediate maneuver
 - when making way, sound one prolonged blast at intervals of not more than one minute
 - operate at a speed to be able to stop in the distance of her visibility
- A patient in shock should **NOT** be placed in which position?
 - On their side if unconscious
 - Head down and feet up, no injuries to face or head
 - Flat on their back with head and feet at the same level
 - Arms above their head
- A vessel is "listed" when it is _____.
 - inclined due to an off-center weight
 - inclined due to the wind
 - down by the head
 - down by the stern

Marco Island Sail and Power Squadron Inc.

MISPS

New Member Connect Program

The Marco Island Sail and Power Squadron (MISPS) seeks to make new Members welcome and encourage active participation in MISPS education courses, boat safety programs and social activities by those new to our organization.

We are seeking volunteers to become New Member Hosts/Sponsors. If you bring a new member into MISPS we would expect you to be their host/sponsor. If you would like to become a new member host for other new members without sponsors please email Ray Rosenberg, AP with your request. Ray will be coordinating this program and will provide you with the tools needed.

Ray Rosenberg, AP raymondhrosenberg@gmail.com

WELCOME NEW MEMBERS!

Two of our newest members of America's Boating Club-Marco Island are partners Jane Orsulak and Tim Benincasa. They will be moving from Ohio to be full-time residents in November when their new home at Hacienda Lakes in Naples is completed. Both Jane and Tim are from Ohio. Jane hails from North Lima and Tim comes from Alliance; both cities are in northeastern Ohio. Jane is originally from Elwood City a small industrial town in Western PA but has lived in Washington, DC, VA and other locales.

Jane earned a Computer Science degree at Indiana University of PA and then a Master's in System Engineering from George Mason University.

Jane's career has spanned some 37 years primarily in the area of software and systems engineering for Raytheon (the #2 Defense contractor in the world). She retired as a Principal Engineering Fellow in 2018 and received many awards along that path. One of which she is most proud is the Society of Women Engineers (SWE) where she received the Spark award for Excellence in Mentoring in 2015.

Jane's boating experience is currently limited to shallow river boating in the Allegheny River at her family's cabin in Emlenton, PA, however she looks forward to learning a ton more through the MISPS. Her initial interests lie in co-operative charting, GPS systems/Electronic navigation, and of course small boat handling as well as the social aspects (including playing cards). Jane looks forward to getting involved in ABC-MI and has appreciated the warm welcome!

Tim is a reinstated member of ABC having been was active in the Sandusky, OH Power Squadron. He earned his AP designation, took lots of elective courses and earned 10 merit marks. In addition, he has served as a P/Lt/C- Executive Officer on the Bridge. He developed a custom member data base, membership handbook and worked on the newsletter, The Watch, among other activities.

Tim's boating experience and interests include 20 years of boating on the Great Lakes mostly on Lake Erie- Sandusky Bay (OH) which was his home port. Power boating is his passion having most recently owned a Tiara Inboard with twin screws which was kept docked at the Sandusky Yacht Club known as the "T and A Express". Tim was also very active with this organization having served on various committees as well as being a Trustee.

Tim went to the University of Cincinnati where he graduated with an Engineering degree. He then completed an MBA from University of Chicago went to work for various high-tech electronics companies such as Eaton Controls, Gould Electronics and others. Tim has 3 daughters, Amy who is sales executive with a large pharmaceutical company living in the Chicago area, Emily who is a therapist living in Mentor, OH and Victoria, a fashion designer living in San Francisco. Besides boating Tim also enjoys E-biking, Wine Tasting, Ham Radio (WA8OML), Woodworking and Theater.

Tim is proud to be associated with MISPS and looks forward to becoming an active member along with Jane.
