

# CPR-AED

## First Aid Course & Training

*Are you prepared to save a life?*

Whether you are first on the scene or a helping bystander, this class covers how to correctly perform CPR on a family member, friend or neighbor suffering from Sudden Cardiac Arrest. CPR can buy you time until an Automated External Defibrillator (AED) is available, and this class will teach you the correct way to use an AED. Captain

**Correctly Performing CPR**

**Use of an AED**

**Resuscitation from Drowning**

**Adult & Pediatric First Aid**

**Control of Severe Bleeding**

**Administration of Epinephrine**

**Taking Charge & Delegating**

Geoff Fahringer will also cover resuscitation from drowning, adult First Aid, Pediatric First Aid as well as use and administration of Epinephrine auto injectors. The training also covers how to control severe bleeding and much more.
